FMTC TABE RETEST POLICY

Fort Myers Technical College adheres to all recommended testing policies established by the **Florida Department of Education, The American Psychological Association (APA), and the National Reporting System (NRS)**. The retest for each level may be taken **no sooner than three months** from the original test date unless the student has enrolled in remediation classes. If the student retests without remediation after the 90-day period and is again unsuccessful on the TABE, the student must enroll in remediation before retaking the test.

Adult students who do not score a minimum of 6th grade level will be recommended to take the TABE Locator in order to determine remediation options.

Students requiring remediation based on TABE results will participate in the Applied Academics for Adult Education (AAAE) program:

1. Students who need to register for the AAAE Learning Center should see a Counselor.
2. An individual study program will be developed.
3. Upon completion of remediation, the student will retest only on the needed subtest(s) in the AAAE learning center.
